As mission of **KIMPHIL Konsult (T) Limited** clearly spells, there exist three Memorandums of Understanding for Association with the following well established firms:

1. NORPLAN TANZANIA Limited
2. BRACKNO Limited(UK)
3. Design Incorporated Limited
4. Agreneb consult limited

Sub consultancy

In addition to our full time professionals, **KIMPHIL Konsult (T) Limited** works with a variety of professional in the engineering services industry as project specific Sub consultants including many individual specialists in specific discipline throughout the country.

Our Services

KIMPHIL Konsult (T) Limited offers consultancy and services in mechanical engineering in the following areas: Ventilation and Extract System; Refrigeration and Cold Storage; Fuel Gas Engineering and Distribution systems; Lift, Hoists and Escalators; Acoustics; Plumbing and Fire Engineering.

It is the policy of **KIMPHIL Konsult (T) Limited** to provide consultancy services of quality. Projects are carried out in an organized, cost effective, timely manner and in accordance with professional standards and meet all the requirements of the brief agreed with the client.

All reports and deliverables are edited and finished reviewed by professionals on respective disciplines .Final project review and assurance is confirmed by frequent and detailed Client level communication.

KIMPHIL Konsult (T) Limited's ability to support the implementation and construction of an actual project, be it a study or an engineering design, results in better 'real time' information about costs, ridership, marketing impacts and revenue resources.

KIMPHIL Konsult (T) Limited strength is set on combination of "hands on" experience in mechanical engineering and all encompassing knowledge of the construction industry , industrial development with enthusiastic grasp of today's economy and technology.

Basing on engineering design principle, that encompasses three key stages of realization:

Need – all designs begin with a clearly defined need,

Vision – all designs arise from a creative response to a need and

Delivery – all designs result in a system, product or project that meets the need.

Our Activies

Industrial Mechanical Installations,
Mechanical Services in Buildings.
Lift, Hoists and Escalators.

Cold storage and Refrigeration installations.
Air conditioning and Ventilation Installation.

Acoustics Engineering

Fire Engineering

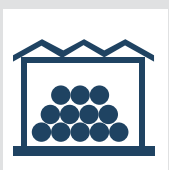

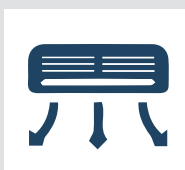

Gas Engineering

Petroleum Engineering

Pump Stations installations

Maintenance Contracts Management.

Project and Contract Management.

Firms Reference

It is the policy of **KIMPHIL Konsult (T) Limited** to provide consultancy services of quality. Projects are carried out in an organized, cost effective, timely manner and in accordance with professional standards and meet all the requirements of the brief agreed with the client.

Previous and ongoing projects

Project title:

Proposed BOT Executive Hotel/Hostel at BOT Training institute –Mwanza

Detailed Narrative Description of Project:

Design and Supervision Of equipment ,system and engineering services for modern Office up to design stage.

Detailed Description of actual services provided by our staff:

- (1) Study of requirement and Site survey.
- (2) Design of building Engineering services like air conditioning system, plumbing works including fire fighting system
- (3) Preparation of specification, drawing and tender documents.
- (4) Floating and Evaluation of tender including advise on tender award
- (5) Evaluation of Tender and Contract Document
- (6) Contract management and Supervision of Works

Previous and ongoing projects

Mevid Limited Project

Proposed Shopping Mall and Apartments Complex

Location: Mbezi Beach in Kinondoni Municipality Dar es Salaam

Architectural Design Criteria:

Contemporary and Green Architecture

Visual Aesthetic

Factors of Comfortability and Good Mood Reflection

Energy efficiency design

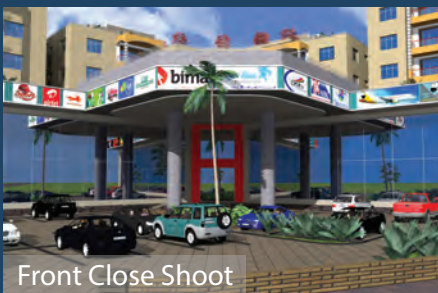

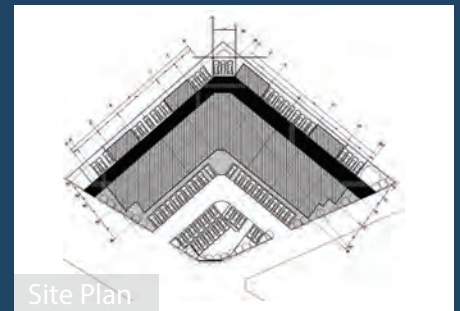

Environmental and Eco friendly

Global warming consideration

Disabled friendly

Local Authorities Statutory fulfillment

Economical Project

Previous and ongoing projects

Gas Projects

Some of the implemented gas projects include;

Construction of a Natural Gas Distribution Pipeline and Connection of 57 Houses at Mikocheni to the Gas Supply Network – Dar es salaam. Done in association with BRACKNO LTD (UK), International Training and Consultancy services to Oil and Gas Industry. The client is TPDC (Tanzania Petroleum Development corporation)

Provision of Training to Engineers from Local Technical Training Institutions on Natural Gas Technology Related to Households, Institutions/Industries and Compressed Natural Gas (CNG) for Vehicles Systems – Dar es salaam. Done in association with BRACKNO LTD (UK), International Training and Consultancy services to Oil and Gas Industry. The client is TPDC (Tanzania Petroleum Development corporation)

Feasibility Study for Natural Gas Pipeline from Mnazi Bay to Dar es Salaam and processing plant. The client is TPDC (Tanzania Petroleum Development corporation)

The construction of Natural Gas Distribution Network in Dar es Salaam, 15 vehicle fueling stations and Connection of up to 30,000 houses to Gas supply network.

Feasibility study for the Construction of High Pressure Pipeline from Wazo-Dar es Salaam to Zinga-Bagamoyo.

Previous and ongoing projects

Other implemented projects include;

Project	Description of Actual Services provided.
<p>Provision of Consultancy Services for Design Works and Supervision for Warehouse Rehabilitation & Construction in Six Irrigation Scheme (Duration: 2014 In progres)</p>	<ol style="list-style-type: none"> 1.
